

0.1 simple boxes environments

This is a box!

"A title"
This is a box!

This is a tcolorbox with a shadow!

"A title"
This is a box!

Nested Box
whoops I'm recursive!

This is lower!

Now, we have the same style!

I've reset my style but only for this box

0.2 box inline commands

Here, we use `\tcbox` to do some interesting things

This is a test hello World. test done

0.3 Further customization

You can make custom box environments

Hello there

This is a box with special title defined as an environment.

Hello there

This is a standard box defined as an environment.

This is a test and we believe in the power of boxes. this can be quite helpful especially when I need to highlight
